Supervisory & Enforcement Effectiveness

Measures to strengthen supervisory effectiveness & mitigate risk exposure

Investment in IT solutions, knowledge management tools and supervisory automation systems including business intelligence tools.

Strengthen risk analysis and conduct regular sensitivity analysis on selected vulnerabilities in line with the new risk management framework.

Continue the capacity building exercise to address gaps in technical, enforcement and supervisory resources (broaden skills set).

Increase in number, intensity and risk orientation of on-site inspections for credit & financial institutions.

Strengthen prudential and conduct supervision to raise the quality of governance and control environment of licensed institutions.

Ensure the MFSA adopts a new 5-year business model based on a cost recovery fee policy to ensure long-term stable funding and full financial autonomy.

Improve timeliness of enforcement action.

understanding of ML/TF risks, sanctions monitoring to raise compliance standards across the industry.

Invest more in AML/CFT training to improve

and ongoing monitoring of fit and properness of individuals and their involvements while operating in the financial services sector.

Enhance intelligence gathering, due diligence

Strategic priorities for the next 3 years

Focus on the ongoing strategic engagement between the MFSA, FIAU and financial services

players and practitioners to establish a common understanding of ML/TF risks, conduct expectations and the application of Malta's regulatory framework.

Complete the implementation of the MFSA's technology and knowledge management

programme to improve data analysis, decision support and reporting.

Continue increasing frequency and intensity of on-site inspections of banks, FIs and other licensed institutions using a risk-driven approach.

Continue boosting the MFSA's capacity building efforts, broadening of skill sets and application
