

Solvency II Circular for Insurance and Reinsurance Undertakings

The Malta Financial Services Authority (“*MFSA*”) has today published a revised version (Version 01/2017) of the Annual National Specific Templates (“*ANSTs*”), which may be accessed by clicking [here](#).

The difference between the prior version (Version 01/2016) and the above-mentioned version of the *ANSTs* relates to amendments of formulae embedded within the ‘Total’ table of tab ‘ANST01’, to appropriately capture non-proportional reinsurance inwards lines of business.

It is important that *ANST* Version 01/2017 is used by the Insurance and Reinsurance Undertakings, otherwise the submission of the previous version will be rejected by the system. In this respect, please make sure that the *ANST* Version 01/2017 is submitted to both the *MFSA* and the *CBM* going forward.

Any queries in relation to the above should be directed to the *IPSU* mailbox at ipsu@mfsa.com.mt.
