Distributions and redemption to be made to the Issuer are subject to a successful business model of E-Stream Energy Companies, generating enough earnings, revenues and/or cash flows to distribute.	
<i>Insolvency risk:</i> The Noteholders (as defined below) assume the credit risk of the Issuer. In the case of insolvency (or similar cases) of the Issuer, the Noteholders may lose part or all of their claims to repayment of their invested capital.	
<i>Risks in connection with refinancings:</i> It cannot be ruled out that the Issuer will be dependent on new refinancing for the repayment of the Notes, if necessary by issuing new Notes. If financing required for repayment is not available – for whatever reason – the Issuer may not be in a position to repay the Notes.	

## KEY INFORMATION ON THE SECURITIES

<b>1. What are the main features of the securities?</b>
<b>a. Type, class and ISIN</b>
The Notes are unsecured fixed rate notes. The Notes are issued in registered form.

International Securities Identification Number: (International Securities Identification Number (ISIN)) MT0002821206.
<b><i>b. Currency, denomination, par value, the number of securities issued and the term of the securities</i></b>
The Notes are issued in "Euro" and the denomination of each Note is EUR 1,000. The total number of Notes to be issued is up to 5,000 (this corresponds to an aggregate principal amount of up to EUR 5,000,000). The maturity date of the Notes is 15 November 2033 (the <b>Maturity Date</b> ).
<b><i>c. Rights attached to the securities</i></b>
Based on terms and conditions of the Notes (the <b>Terms and Conditions</b> ) the following rights are attached to the Notes:
<i>Interest payment:</i> Holders of Notes (the <b>Noteholders</b> ) are entitled to distributions (interest). Thus, the Notes will bear interest from and including 30 August 2024 to, but excluding, the Maturity Date at a rate of 6.25 per cent. per annum, payable semi-annually in arrears on 15 May and 15 November in each year, commencing on 15 November 2024.
<i>Redemption at maturity:</i> Unless previously redeemed, or cancelled, the Notes will be redeemed at their principal amount (which is EUR 1,000 per Note) on the Maturity Date.
<i>Early redemption in an event of default:</i> The Terms and Conditions provide for events of default entitling each Noteholder to demand immediate redemption of its Notes at the early redemption amount (which is 100 per cent. of the principal amount) together with accrued interest to the date of repayment.
<i>Early redemption for taxation reasons:</i> Early redemption of the Notes for reasons of taxation will be permitted, if as a result of any change in, or amendment to, the laws or regulations (including any amendment to, or change in, an official interpretation or application of such laws or regulations) of Ireland or any political subdivision or taxing authority thereto or therein affecting taxation or the obligation to pay duties of any kind, the Issuer will become obligated to pay additional amounts on the Notes, as more described in the Terms and Conditions.
<b><i>d. Relative seniority of the securities in the issuer's capital structure in the event of insolvency</i></b>
The obligations under the Notes constitute unsecured and unsubordinated obligations of the Issuer ranking pari passu without any preference among themselves and pari passu with all other, present and future, unsecured and unsubordinated obligations of the Issuer, unless such obligations are given priority under mandatory provisions of statutory law.
<b><i>e. Restrictions on the free transferability of the securities</i></b>
In general, the Notes are freely transferable and title to the Notes passes on by registration (inscription) in the relevant register. However, no Noteholder may require the transfer of a Note to be registered (i) after an event of default notice has been issued pursuant to Clause 8(b) of the Terms and Conditions or (ii) during the period of 15 calendar days ending on the due date for any payment in respect of that Note.
<b>2. Where will the securities be traded?</b>
The Notes will not be traded on a regulated market.
<b>3. What are the key risks that are specific to the securities?</b>
<i>Risk of changes in interest rates:</i> An investment in the Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes. Correspondingly, a Noteholder is exposed to the risk of an unfavourable development of market prices of his Notes which materialises if the Noteholder sells the Notes prior to the Maturity Date of the Notes.
<i>Exchange rate risks:</i> The Issuer will pay principal and interest (distributions) on the Notes in the relevant specified currency as specified in the Terms and Conditions. This presents certain risks relating to currency conversion if an investor's financial activities are denominated principally in a currency or currency unit other than the relevant specified currency.
<i>Risks relating to an illiquid secondary market:</i> Regardless of whether the Notes are listed or not on non-regulated markets, regulated markets, multilateral trading facility (MTF) or organised trading facilities (OTF), there is a

risk that no liquid secondary market for the Notes will develop or, if it does develop, that it will not continue. Consequently, there is a risk for Noteholders that they may not be able to sell their Notes at any time.
<i>Risk associated with the credit spread of the Issuer:</i> The market price of the Notes may be negatively affected by an increase in the Issuer's credit spreads, i.e. the difference between yields on the Issuer's debt and the yield of government bonds or swap rates of similar maturity.
<i>Substitution of the Issuer:</i> The Terms and Conditions provide for the possibility of a substitution of the Issuer. In this case, another company assumes the role as principal debtor (including, as applicable, a subsequent substitution of the debtor) under the Notes in place of the Issuer. The amounts which Noteholders should receive in respect of the Notes may be affected in the event that the Issuer substitutes another company for itself as issuer of the Notes under the Terms and Conditions.
